

K-Love is a very positive radio program in our local area. It is the only station in our cars, as well as, our home. With K-Love I do not have to worry about what our four children may be hearing. In this day and age there are so many things out there that are sickening to see and hear. If you change to LPFM stations then we may lose our K-Love station and that would be a sad thing to have happen. I know that K-Love is supported by a huge number of people in the Northeast Nebraska area. I know that personally I get sick and tired of everyone's agenda of trying to take away the positive things out there on both the radio and the tv stations, and that is just what you would be doing if you allowed this to pass. Thank you for your time
